Professional Summary

Software Developer specializing in **Flutter** and **C++**, with hands-on research experience at **IIT Roorkee** building real-time **IoT** and **data analytics** applications. Strong problem-solving foundation with a **LeetCode Knight** ranking and **1000+ DSA problems** solved. Proven ability to build and integrate **Machine Learning models** into highly scalable, **cross-platform Flutter applications**. Active **open-source contributor** with **merged commits** in renowned projects, highly motivated to engineer robust software solutions.

Education

B.Tech in Computer Science	2023 – 2027
Gurukula Kangri (Deemed To Be University), Haridwar	CGPA: 8.6 / 10.0
Higher Secondary School (Class XII)	87% 2023
Shivalik Public School, Roorkee	Uttarakhand, India
High School (Class X)	84% 2021
Army Public School No. 1, Roorkee	Uttarakhand, India

Technical Skills

Languages: Dart, C++, Python

Frameworks & Technologies: Flutter, Firebase

Tools & Environment: Git, GitHub, Linux

Professional Experience

Research Intern	Jan 2026 – June 2026
<i>IIT Roorkee</i>	<i>Uttarakhand, India</i>

- Built a cross-platform **Flutter** IoT dashboard, achieving **60 FPS** UI rendering and under **200ms** latency.
- Developed a real-time **Digital Twin** application integrating **Machine Learning** models, successfully processing **10,000+** live sensor data points daily for predictive analytics.
- Engineered a scalable **Dart** state-management architecture, handling **500+** concurrent requests at **99.9%** uptime.

Projects

PadhaiPedia – B2C E-commerce Mobile Application	Aug 2025 – Nov 2025
<i>Flutter, Firebase, Google Play Billing</i>	🔗 Play Store

- Developed an end-to-end cross-platform application for coaching institutes to securely sell and distribute **50+ proprietary courses**.
- Integrated **Firebase** backend and **Google Play Billing** to facilitate secure, real-time in-app purchases and digital transactions.
- Successfully deployed and published the application live on the **Google Play Store**, managing live production builds and public application delivery.

Achievements & Leadership

- Contributed to open-source projects during **GirlScript Summer of Code (GSSoC)**, solving issues and merging pull requests in real-world codebases.
- Achieved **LeetCode Knight** status; secured a **Top 5%** global ranking with **1000+ DSA problems** solved.
- Served as **NSS Leader**, directing **100+ volunteers** to plan and execute **10+ social welfare** programs.
- Selected twice (**2-time representative**) for the prestigious **National Integration Camp (NIC)** among 20+ states.
